PTWPKL Persatuan Taekwon-Do Wilayah Persekutuan Kuala Lumpur (GTF), founded on 30th September 1998, is a passionate and visionary association. Through the spirit of martial art and along under the guidance of our President, Mr. Ting Siew Chuan (6th Degree Black Belt), PTWPKL is moving ahead to a higher level of martial art where we aspire to form a more self-disciplined, rational and healthier person. He sees the potential of PTWPKL to become stronger than it ever was. His visions are to uncover the art of Taekwon-Do, unleash the potential of the members, and eventually bring them to the international platform. With the dedication and co-operation of the committee members, PTWPKL is now recognized as one of the outstanding associations by winning the Anugerah Sukan Untuk Semua for year 2011, 2012 and 2013. Following on that, Mr. Ting successfully launch TSC Taekwondo Academy on October 2016 as to provide a more comfortable and better environment for our students to conduct training.

As a traditional martial art in an urban environment, our association not only focuses on the excellence of skills, techniques and core values of Taekwon-Do, but also provides a platform for our student opportunities for social interaction and leadership opportunities.

Message from Deputy Minister of Education YB Puan Teo Nie Ching

Congratulations on your success in hosting the 8th Best of the Best Malaysia Open Taekwon-Do Championship 2019.

I have come to know that this event has become a regular feature in the activities of Persatuan Taekwon-Do Wilayah Persekutuan Kuala Lumpur (GTF). Therefore, it is no surprise that the Ministry of Education and Ministry of Youth and Sports recognized the achievement of the organising committee and have in the past presented them with outstanding awards. I am happy to learn of such dedicated commitments.

The way I see it, “Best of the Best Taekwondo Championship” provides a good platform for athletes around the country and overseas to gain exposure and make more friends as well as share knowledge and skills among participants. I am also proud to know that all proceeds from this tournament will go directly to the association to support and further develop all Taekwon-Do practitioners.

For Ministry of Education, promoting and developing sports is important. We aim to nurture students who are excellent in as many fields as possible. Sports and athletics is an important feature of the education system and we will continue to strive to improve on it. Recently, our Minister of Education YB Dr Maszlee has called for more love, mutual respect and happiness in schools.

Sports is certainly one of the best platforms to cultivate these values amongst young people. It teaches athletes about sportsmanship, respect and endurance. I also anticipate that this championship will certainly build the spirit and establish self-esteem among all participants.

I would like to emphasize that success is not final, and failure is not fatal. It is the courage to continue that counts. To all athletes, you should never, never, give up. Congratulations to the organizing team and all the best to the participants.

Thank you.
